

29th Annual Osteopathic Winter Seminar Announces New Location for 2018

The 29th Annual Osteopathic Winter Seminar will be held on January 24-27, 2018 at the new **Wyndham Grand Hotel** on Clearwater Beach. This is now the largest beach hotel with nearly 400 guest rooms.

The brand new modern décor of well-appointed guest rooms, each with a spectacular view of the Gulf of Mexico or the Intercoastal Waterway, is inspired by the sugar white sands on the No. 1 rated beach in the United States by Trip Advisors.

With its prime waterfront location, high-end design and wide array of first class amenities, this property is a significant addition to the Clearwater Beach Community. Services and amenities include a large outdoor pool complex, a full-service spa, multiple restaurants assessable from Beach Walk, and immediate access to America's top beach.

The 29th Annual Osteopathic Winter Seminar will offer 28 CME Category 1A credits, including all of the Florida state mandated courses. The program will feature nationally known speakers, exceptional exhibit set-ups, special social/networking events, Young Physicians social event, and the Presidential Dinner featuring state and national osteopathic presidents.
